INDEX TO AGRICULTURAL ENGINEERING

Volume 25 — January to December, 1944

Issue	Pages
JANUARY	1- 32
FEBRUARY	33- 72
MARCH	73-112
APRIL	113-160
MAY	161-200
JUNE	201-240
JULY	241-272
AUGUST	273-320
SEPTEMBER	321-360
OCTOBER	361-408
NOVEMBER	409-448
DECEMBER	449-496

This a combined alphabetical index to the contents of AGRICULTURAL ENGINEERING by authors, regular features, professional interests, and subject matter, including plants and animals concerned, materials, machines, processes, structures, and key words in titles.

A

AGRICULTURAL ENGINEERING
(Agricultural Engineers)
The agricultural engineer in the post-war period — 129
Postwar opportunities for agricultural engineers in soil and water conservation — 208
Proposed program for agricultural engineering extension — 228
Agricultural engineers—pioneers of tomorrow — 249
China must have agricultural engineering — 297
National roster of scientific and specialized personnel and fields of agricultural engineering specialization — 429
Agricultural engineering — 471
Accrediting of agricultural engineering curriculums — 473

Agricultural Engineering Digest — 68, 100

Aicher, L. C.
A buffalo grass seed drier — 394

A.S.A.E. Honor Roll — 225

AWARDS (See Medalists)

B

Baker, Elmer J., Jr.
New farm machinery developments needed — 41

Bankers, Bring in the (editorial) — 78

Barr, Harold T.
Sweet potato dehydration — 213
Controlling weeds by flame — 291

Barrett, G. R.
Dairy cow housing under study — 83

Benham, John F.
Weed control with chemicals — 298

Bohstedt, G.
Nutritional values of hay and silage as affected by harvesting, processing and storage — 337, 388

Brown, O. A.
Developments in peanut harvesting equipment — 125
The U.S.D.A. castor bean hullers — 290
A sheller for seed peanuts — 424

Browning, G. M.
Present status of the plow as a tillage implement — 7

Brush removal for pasture improvement 253

Buffalo grass seed drier, A — 394

Buie, T. S.
The machinery factor in soil conservation — 79

C

Carreker, John R.
Combine harvesting by terrace intervals — 141

Carter, Deane G.
The relation of farm structures to agriculture — 281

Carter, L. C.
How to dry combined oats (letter) 196

Castor bean hullers, The U.S.D.A. — 290

Chambers, T. B.
Engineering developments in soil and water conservation — 86
Postwar opportunities for agricultural engineers in soil and water conservation — 209
Farm equipment in soil conservation 484

Chemicals, Weed control with — 298

China must have agricultural engineering — 297

Chinch bugs, Placing barrier strips to control — 292

Cole, R. O.
Building terraces with the moldboard plow — 15

Collins, E. V.
Present status of the plow as a tillage implement — 7

Combine harvesting by terrace intervals 141

Combine, The self-propelled — 333

CONSERVATION Soil and Water (See also Drainage, Erosion Control, Hydrology, Irrigation, Soils)
The water facilities program in the war effort — 43
The machinery factor in soil conservation — 79
Engineering developments in soil and water conservation — 86
Postwar plans for soil and water conservation — 93
Postwar opportunities for agricultural engineers in soil and water conservation — 208
Soil and water conservation in irrigated areas — 285
Some field applications of water transmissibility and storage coefficients — 299
Baffle type energy dissipator for pipe outlets — 301
Techniques used in raindrop erosion studies and practical applications of data — 306
Planning farm ponds to insure ample water supply — 372
The problem of securing machinery for farm reservoir construction — 460
Farm equipment in soil conservation 484

Consulting practice (editorial) — 166

"Contour fencing" (editorial and letter) — 78, 130

Corn borer, Progress in controlling the 419

Cotton has arrived, Mechanical harvesting of — 167

Coultas, W. J.
The A.S.A.E. tractor power take-off and drawbar hitch standardization program — 284

Cox, Maurice B.
Mulch culture tillage and draft requirements for tillage machinery 175
Brush removal for pasture improvement — 253

Crow, Ray
Farm service buildings — assets or liabilities — 215

Curriculums, Accrediting of agricultural engineering — 473

D

Dairy cow housing under study — 83

Dairy engineering (committee report) 352

Dalziel, Charles F.
Electrocution by electric fence controller — 308

Daugherty, George H.
Farm terracer vs. moldboard plow (letter) — 184

Davidson, J. Brownlee
Agricultural engineering — 471

Debeaking poultry — 96

DEHYDRATION, Natural and Artificial (See also Drying)

A report on home dehydration of food products 52
Sweet potato dehydration 213
Dissipator for pipe outlets, Baffle type energy 341
DRAINAGE, Land (See also Hydrology)
Expansion of clay and concrete drain tile due to increase of temperature and moisture content 179
How to determine the drainability of soils 221
Legislation for drainage construction and maintenance 223
A study of the centrifuge moisture equivalent as an index of the hydraulic permeability of saturated soils 381
DRYING — Driers (See also Dehydration)
Artificial drying of combined rice 379
A Buffalo grass seed drier 394
Barn curing of hay with heated air 421 (Correction) 486
Duffee, F. W.
Interchangeable power units for farm machines 45

E

EDITORIALS
Important if true 6
Which is the happy mean? 6
Hay burns the midnight oil 6
Plow vs. poison 6
The rabbit rises again 6
Perishables 38
Rural industry, a challenge 38
Vertical diversifications 38
Contour fencing 78
Which way to terrace 78
Bring in the bankers 78
Trading fighters for food 118
Synthesized spraying 118
Consulting practice 166
Hoarding engineers 166
Bread, not stones 166
Irrigation unlimited 207
Patriotism can be practical 207
Dewater the wiring 207
Farm power studies 247
Country doctor and country squire 247
Common denominator 247
Why is building so backward? 279
Barns are built in the city 279
Friends from afar 279
Electricity to earn its way 327
Discount the depression 327
Emphasize education 327
Education for farmers 367
Surplus and salvage 367
Let's have profits 367
Commercial cooperation 415
Proration vs. dumping 415
Fish story 415
NRSSP 415
Net cannot exceed gross 457
Dignify the hired man 457
Engineers must teach 457
Efficiency, Some concepts of farming 369
Ekblaw, K. J. T.
Teaching repair and maintenance of farm buildings in vocational agriculture schools 18
ELECTRIFICATION, Rural (See also Refrigeration)
Farm electric equipment for postwar needs 119
Electricity for daily farm chores 121
Lamps as sources of heat 148
Dewater the wiring (editorial) 207
Lighting principles applied to the farm home 293
Electrocution by electric fence controller 308
Electricity to earn its way (editorial) 327
An electro-economy for agriculture 329
Electric lamps for farm lighting requirements 427
Farm electrification—a challenge 479
Ellison, W. D.
Two devices for measuring soil erosion 53
Studies of raindrop erosion 131, 181
A rainfall applicator 220
Techniques used in raindrop erosion studies and practical applications of data 306
Elwell, Harry M.
Brush removal for pasture improvement 253
Employment, Postwar (letter) 385
Engine on a dairy farm, Uses for multicylinder 46
Engineers, Hoarding (editorial) 166
Engler, Kyle
Artificial drying of combined rice 379
EROSION CONTROL, Soil (See also Hydrology, Soils)
Building terraces with the moldboard plow 15
Two devices for measuring soil erosion 53
Contour fencing (editorial) 78
Which way to terrace (editorial) 78
Erosion control on slopes steeper than 12 per cent 123
Studies of raindrop erosion 131, 181
A system for checking terraces 260
A 100 per cent cooperative terracing program 425
Erosion studies and practical applications of data, Techniques used in raindrop 306
Extension, Proposed program for agricultural engineering (committee report) 228

F

Farming efficiency, Some concepts of 369
Fence controller, Electrocution by electric 308
Fence exposure tests, The 140
Fencing, Contour (editorial and letter) 78, 130
Fertilizer distributor, A new liquid 58
Fire prevention program, The Iowa rural 19
Fire prevention program, A 22
Fire fighting methods and equipment for rural communities 457
Fire protection, The Kent County system of rural 459
Fletcher, Leonard J. (1944 McCormick medalist) 254
Food production, The logistics of wartime 122
Forage problems for engineers 56

G

Germicidal and heat lamps for poultry 94
Giese, Henry
The Iowa rural fire prevention program 19
Guillou, Rene
Ag engineering "down under" (letter) 444
Gunlogson, G. B.
Some concepts of farming efficiency 369
Gypsum board in farm building construction 477

H

Hamilton, C. L.
The 1944 farm building goals 17
Hamilton, E. W.
Forage problems for engineers (letter) 56
Hamlin, Frank K.
Flue curing of chopped hay (letter) 130
Hansen, E. L.
A firesafe, labor-saving livestock compound 417

Hansen, H. V.
Time and labor-saving possibilities of a high-speed drill planter 387

Harrold, L. L.
Planning farm ponds to insure ample water supply 372

Haswell, John R.
A fire prevention program 22

Treatment of electric shock victims (letter) 444

Haw, John W.
A postwar program for irrigated land expansion 142

Hay burns the midnight oil (editorial). 6

Hay, Flue curing of chopped 130, 259

Hay and silage as affected by harvesting, processing, and storage, Nutritional values of 337, 388

Hay and bedding storage, Trends in structures for 375

Hay with heated air, Barn curing of .. 421
(Correction) 486

Heat lamps for poultry, Germicidal and 94

Heat, Lamps as sources of 148

Henderson, G. E.
A report on home dehydration of food products 52

Henderson, S. Milton
Resistance of soybeans and oats to air flow 127

Honor Roll, A.S.A.E. 225

Hopson, Dr. Geo. H.
New techniques in milking 295

HYDROLOGY — Hydraulics
Progress of hydrologic and hydraulic studies 186

Baffle type energy dissipator for pipe outlets 301, 341

I

Ingerson, H. G.
Fire fighting methods and equipment for rural communities 457

IRRIGATION
Performance of irrigation sprinkler units 49

A postwar program for irrigated land expansion 142

Irrigation unlimited (editorial) 207

A new irrigation sprinkler 252

Soil and water conservation in irrigated areas 285

A study of the centrifuge moisture equivalent as an index of the hydraulic permeability of saturated soils 381

Development of agricultural land for irrigation 467

J

Jennings, B. A.
The fence exposure tests 140

Jones, Lewis A.
Legislation for drainage construction and maintenance 223

K

Kable, George W.
Farm electric equipment for postwar needs 119

Kazmann, Raphael G.
Some field applications of water transmissibility and storage coefficients 299

Keith, L. P.
Applications of new developments in timber construction to farm buildings 461

Kernen, Fred W.
The postwar farm tractor (letter) 261

Kimball, Frank
Soil and water conservation in irrigated areas 285

Knipe, Fred W.
Agricultural engineers in malaria research and control 217

Kramer, Harold A.
Factors influencing the design of bulk storage bins for rough rice .. 463

Kranick, Frank
The machinery factor in soil conservation (discussion) 81

Krimgold, D. B.
Planning farm ponds to insure ample water supply 372

L

Lighting requirements, Electric lamps for farm 427

The logistics of wartime food production 122

Lyon, Jim
Debeaking poultry 96

M

Machiele, Richard
The Kent County system of rural fire protection 459

MACHINERY, Farm (See also Dehydration, Erosion Control, Tractors)
Present status of the plow as a tillage implement 7

Perishables (editorial) 38

New farm machinery developments needed 39

Interchangeable power units for farm machines 45

Uses for multicylinder engine on a dairy farm 46

A new liquid fertilizer distributor .. 58

The machinery factor in soil conservation 79

Another answer to "Plowman's Folly" 95

Synthesized spraying (editorial) 118

Developments in peanut harvesting equipment 125

Mechanical harvesting of cotton has arrived 167

Integrating farm machinery with the tractor 173

Mulch culture tillage and draft requirements for tillage machinery .. 175

The A.S.A.E. tractor power take-off and drawbar hitch standardization program 284

The U.S.D.A. castor bean hullers 290

Controlling weeds by flame 291

Placing barrier strips to control chinch bugs 292

The self-propelled combine 333

Postwar needs in the field of farm power and machinery (committee report) 402

Some concepts of farming efficiency 369

Checkrow planting at higher speeds 386

Time and labor-saving possibilities of a high-speed drill planter 387

Nutritional values of hay and silage as affected by harvesting, processing, and storage 337, 388

Progress in controlling the European corn borer 419

A sheller for seed peanuts 424

The problem of securing machinery for farm reservoir construction 460

Farm equipment in soil conservation 484

Malaria research and control, Agricultural engineers in 217

Matthews, Charles A.
Wartime repair of farm structures .. 91

McColly, Howard F.
The water facilities program in the war effort 43

McKibben, Eugene G.
New farm machinery developments needed 40

McKinlay, Helen G.
Lighting principles applied to the farm home 293

McKitrick, John L.
The problem of securing machinery for farm reservoir construction 460

McNeal, Xzin
Artificial drying of combined rice 379
